SUMMARY

Frontend-focused Software Engineer with 4+ years building high-traffic e-commerce experiences in React and Next.js, specializing in checkout flows, performance optimization, and micro-frontend architecture.

PROFESSIONAL EXPERIENCE

T-MOBILE (MINT MOBILE & ULTRA MOBILE) Costa Mesa, CA

Software Engineer II

May 2023 – Present

- Own the Cart and Checkout micro-frontend pages for a high-traffic e-commerce site, ensuring smooth transactions and reducing fraud risk
- Improve page performance and Lighthouse scores through bundle optimization, targeted bug fixes, and security hardening
- Ship UI and purchase-flow enhancements that support stronger conversion rates and revenue growth
- Designed and implemented a dynamic filtering system for phone deals, improving product discoverability and overall usability

Software Engineer I

April 2021 – May 2023

- Built and maintained React and Next.js features supporting high-traffic e-commerce purchase flows
- Implemented an order status tracking feature using the FedEx API, rendering real-time shipment status in the UI to improve post-purchase visibility for customers
- Helped migrate a legacy monolithic frontend (HTML, CSS, JavaScript, PHP, WordPress) to a modern micro-frontend architecture using Next.js, improving scalability and maintainability

TEPIA CO Costa Mesa, CA

Assistant Product Manager

August 2020 – March 2021

- Managed and updated WordPress and Shopify websites across multiple client accounts
- Led quality assurance efforts to ensure applications met functional and technical specification requirements
- Drafted technical and functional specification documents to guide developer implementation

PILLAR (FORMERLY HOLC) Mountain View, CA

Software Engineer

August 2020 – January 2021

- Built custom React components with TypeScript to implement new product features
- Improved mobile responsiveness and refactored UI components to align with Figma design specifications
- Troubleshoot and resolved frontend bugs, improving application stability and performance
- Collaborated with a cross-functional Agile team, participating in sprint planning and retrospectives

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML, CSS

Backend & APIs: Node.js, PHP, REST APIs

Tools & Platforms: Docker, Git, GitHub, Bitbucket, Jira, Figma, WordPress

EDUCATION

UNIVERSITY OF CALIFORNIA, IRVINE Irvine, CA

Bachelor of Arts, Political Science
